COMING CONFERENCES AND SYMPOSIA

April 2012

April 13-15, 2012

NZSEE Annual Technical Conference and AGM, Christchurch. See web site for details.

STRONG MOTION RECORDINGS

Strong-motion data recorded in New Zealand can be downloaded from the GeoNet website. For earthquake records and plots go to <ftp.geonet.org.nz/strong/processed/Proc>, and for information about the recording sites, including ground conditions, go to <http://magma.geonet.org.nz/delta/app>. Alternatively navigate through www.geonet.org.nz > resources > basic data > strong-motion data (which provides more information for first-time users). Useful lists of records linked to earthquakes and site codes are available in <ftp.geonet.org.nz/strong/processed/Docs>.

For further information about the data, bulk supply of records, or to provide feedback, contact Jim Cousins at j.cousins@gns.cri.nz.
